## Expert Customer Service at Your Fingertips

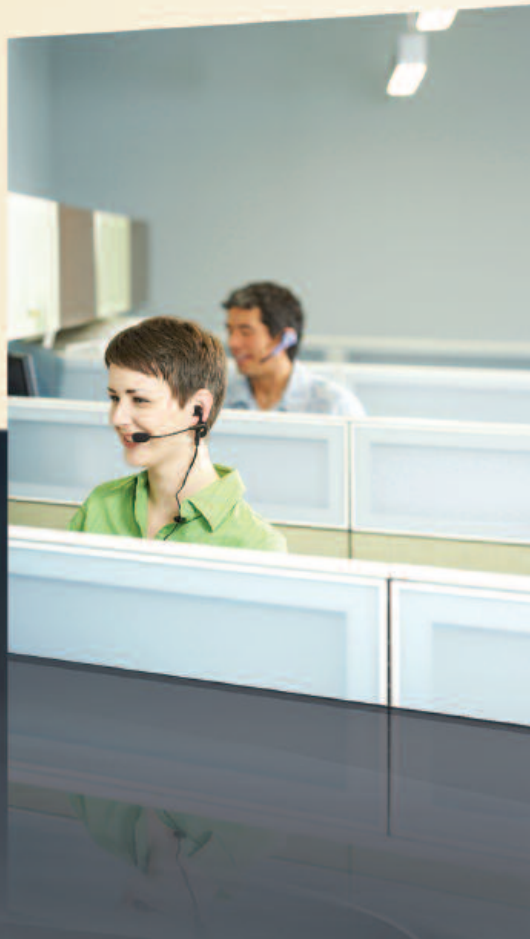

**Our attention to detail shows in both the quality of our products and the quality of our customer service.**

- We work tirelessly to take the confusion out of buying the right AV mount, furniture and accessories for your TV and components
- Our customer service hotline is staffed Monday through Friday, 7 a.m. to 7 p.m. CST
- Hotline staff understand the full functionality of our products and can provide tips and techniques for successful installations
- Online MountFinder™ tool matches specific TVs to the correct Sanus mounts and accessories — MountFinder™ is available at [www.sanus.com](http://www.sanus.com)
- We stand behind our products with an industry-leading warranty

**Our customer service team is experienced and passionate about the consumer electronics industry.**

- Service team members receive continuing and extensive hands-on training with every Sanus product
- Service team members complete Certified Technology Specialists curriculum and testing from InfoComm International, a non-profit association serving the AV industry worldwide
- Customer service hotline team has direct access to product engineers to ensure accurate answers for all questions

Customer service hotline is just a call or click away.  
Dial 1-800-359-5520 and press “1” or email [info@sanus.com](mailto:info@sanus.com).

## Comprehensive Product Information at the Click of a Button

The Sanus Systems website leads the industry in usability and state-of-the-art development. Offered in eight languages and multiple regions internationally, it's a one-stop shop for information, including comprehensive product details and the latest Sanus news and press releases.

### Sanus.com brings you:

- **MountFinder™**  
Match any TV to the perfect mount with our comprehensive TV and product database
- **HeightFinder™**  
Determine the proper placement of a Sanus flat-panel wall mount for optimal viewing
- **Store locator**  
Find Sanus dealers based on postal code
- **New product information**  
Stay up to date with our latest product introductions
- **Detailed product specifications**  
Get information on all Sanus products, including furniture, speaker stands, mounts and accessories
- **Product Manuals**  
Locate and download installation instructions for any Sanus product
- **Support**  
Find details on warranties, returns, exchanges and replacement parts
- **Contact Information**
- **Find Sanus on your mobile device at m.sanus.com**  
You can access in-depth product information and useful tools like MountFinder™, HeightFinder™ and Store Locator wirelessly

### MountFinder™

MountFinder™ is a comprehensive TV and product database that takes the guesswork out of finding the perfect wall or ceiling mount. Simply enter the brand or model number of your TV, and MountFinder™ will display all compatible Sanus mounts.

If you are unsure of your model number, or if your particular television or monitor is not listed in our database, our advanced MountFinder™ allows you to search for compatible Sanus products based on the physical specifications of your television or monitor.

## SPECIALTY

[illegible]

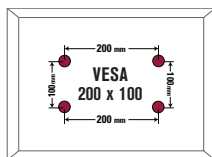

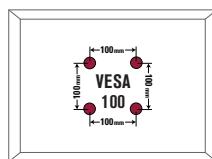

## MOUNT COMPATIBILITY TV HOLE PATTERNS

Sanus VisionMount® products are compatible with virtually every television on the market.

The television manufacturers use two different standards for designing the back of their TVs so they can be mounted.

**VESA**

VESA is a standard that dictates the exact placement of the holes on the back of a TV. Typically, LCD flat-panel TVs follow VESA standards. There are several sizes of TVs and mounts within the VESA standards (75 mm x 75 mm; 100 mm x 100 mm; etc.) When purchasing a TV that follows VESA guidelines, it is important to choose a mount that uses the same VESA standard as the TV. The other critical element in choosing the right mount is to compare the weight of the TV to the weight rating of the mount.

## RANDOM

The second concept is not really a “standard” at all. Rather, TV manufacturers who do not follow the VESA standards place their mounting holes on the back of their TV in non-conforming places. For these TVs, Sanus makes “universal” mounts. This means there are brackets that can be adjusted back and forth to properly align with many mounting holes. When mounting a TV with a random hole pattern, in addition to choosing a “universal” mount, it is critical to also compare the weight of the TV to the weight rating of the mount.

# SANUS ELEMENTS™

Sanus Elements™ is a **quality line of accessories** that includes screen care, surge protection and home theater installation products designed to **enhance the use of residential high-end electronics**. Our special alcohol-free gel and gentle cleaning cloths remove oils and fingerprints, and our surge protectors and cable tunnels safeguard valuable electronic equipment.

ELM205-B1

« Alcohol- and ammonia-free gel will not harm screens or discolor bezels

« Microfiber cloth will not leave behind lint or residue

« Surge protector is less than 1.5" in depth

« Micro-Mist™ bottle provides targeted non-streaking spray

« Surge protector designed for use behind flat-panel TV wall mounts and furniture

« Six outlets swivel up to 90°, placing cables nearly flush against the wall for low-profile capability

## AV FURNITURE & ACCESSORIES

# AV FOUNDATIONS™

FEATURES AND BENEFITS • INNOVATIVE TECHNOLOGY

## « Convection Cooling System

Concealed venting allows heated air to flow out the top while drawing in cool air through the bottom, keeping AV components at a proper temperature

## « Wire Management System

Wire management system helps keep cables concealed and organized

## « Virtually Eliminates Resonance

Custom-engineered construction using strategically placed MDF virtually eliminates resonance

## « Solid Materials

Construction using hardwood veneers or solid hardwood frames offers an outstanding combination of stability, durability and style

## « Elegant Glass Shelves

Extra-thick tempered-glass shelves are heat-treated for added safety, strength and shatter resistance

## « Designed To Handle Large Systems

Deep, spacious shelves are designed to handle even the largest AV systems

## « Sturdy Construction

Solid heavy-gauge steel construction offers strength and support in a clean design

## « Easy To Assemble

Assembly hardware included for easy installation

## « Multiple Options

Versatile furniture lines offer multiple designs, sizes and finishes

## « Versatile Designs

Select models feature expandable shelf options and interchangeable door panels to match any home décor and AV equipment need

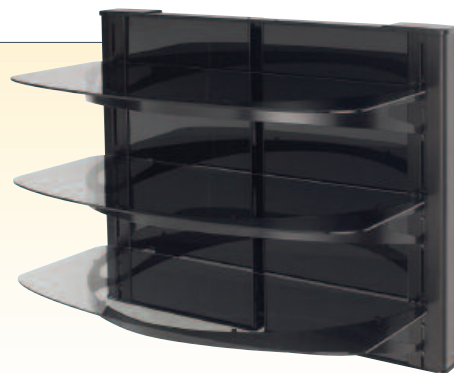

Platinum AV Foundations™ model PFAV30-B1 shown with HTB Speaker Foundations™ model HTB3b

# VERTICAL AV FOUNDATIONS™

## Modern meets practical with Vertical AV Foundations™

Sanus Vertical AV Foundations™ combine the storage capacity of a cabinet with the discreet look of a low-profile wall mount, creating a versatile, stylish piece that can virtually fade into the woodwork. These wall-mounted AV stands feature **adjustable tempered-glass shelves** and generous **cable management channels**, so they're perfect for mounting directly under a TV. And some models offer **interchangeable glass and wood back panels** in case you change your décor. It's the most practical piece of art you'll ever own.

VF5023-B1

« Strong tempered-glass shelves can be vertically adjusted to accommodate any AV component arrangement

« VF5022 and VF5023 include interchangeable black glass and wood back panels to match any home décor

« VF2012 and VF2022 feature post-installation height adjustment to mount directly below television

« Generous cable management channels conceal and route power cables and signal wires

# DESIGNER AV FOUNDATIONS™

## Specially engineered for style and functionality

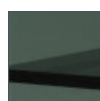

The AV Foundations Designer Series was created exclusively for Sanus by renowned industrial design firm Cramer Studio. Each piece features rich, **mocha-finished hardwood** and smoked **tempered glass** construction, giving AV gear an enclosed look without blocking infrared remote controls. Because the Designer Series was created to handle large AV components, both pieces feature individually **removable steel back panels** to provide additional depth or to allow easy cabling and maintenance.

DFV49-M01 | NF36-M01

« Rich mocha-finished hardwood legs

« Smoked tempered-glass gives AV gear an enclosed look without blocking infrared remote controls

« Unique convection cooling system allows heated air to escape through top as cooler air is drawn in through bottom

# COMPONENT AV FOUNDATIONS™

CFA56-EB1 | CFV47-EB1 | UF34

## Built to perform with no compromising on aesthetics

The Component Series was engineered for serious audiophiles.

**Extra-deep cable management channels** span cabinet widths to contain complex cable systems, and **quick-release back panels** provide easy access to cables and wires. These high-test, spacious pieces feature resonance-absorbing MDF construction and **beautiful hardwood veneers** to provide a superior acoustic — and aesthetic — performance.

« Center channel cavity with speaker grill cloth on CFV69 allows for concealed speaker placement

« Extra-deep, full-width wire channel easily contains all cables from even the most complex systems

« Removable carpet glides make rearranging furniture easy on carpeted surfaces

« Adjustable isolation shelves separate AV components for vibration reduction

« Convection cooling system allows heated air to escape as cooler air is drawn in

« Solid polyester feet with optional carpet spikes dampen resonance

« Quick-release removable back panels provide easy access to AV components for wiring

« Versatile line includes glass and wood door-panel options for a customizable design

# FLAT PANEL AV FOUNDATIONS™

## Sleek lines and innovative structure support large TVs with grace

The Flat Panel Series is the perfect complement to modern AV gear.

The **perfect alternative when wall mounting is not possible**, our TV stands offer extra-strong aluminum construction and thick tempered-glass shelves to display nearly any combination of AV components. Features include a cable management channel and Sanus' **patented Virtual Axis™** or **Virtual Axis 3D™** fingertip tilting technology.

PFFPb | HTB4b

« Perfect solution for environments in which wall mounting is not possible

« Built-in wire management system conveniently hides and manages cables

« Height-adjustable tempered-glass shelves stylishly display your AV gear

« Included flat-panel TV mount features Virtual Axis™ or Virtual Axis™ 3D technology for smooth fingertip tilting motion

# STEEL AV FOUNDATIONS™

SFV265-B1 | EFSatb

## Strength and style in an affordable package

The AV Foundations Steel Series was created to complement large TVs and home theater components. Features include strong **tempered-glass** shelves, wire management channels and **adjustable-height feet**. Each piece offers **heavy-gauge steel** construction for extra strength, as well as open architecture to allow unrestricted airflow to AV components.

« Tempered-glass tops and shelves are extra-thick for additional support and safety

« Wire management path neatly hides and safely routes wires and cables

« Model SFA29 features adjustable-height shelves made of sturdy tempered glass

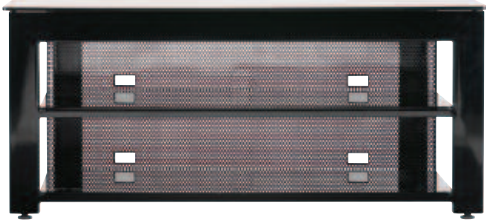

« Adjustable feet ensure level and secure positioning on any floor

# SPEAKER FOUNDATIONS™

FEATURES AND BENEFITS • INNOVATIVE TECHNOLOGY

## « Optional Speaker Isolation Technology

Brass studs or neoprene pads provide superior speaker isolation

## « Stability On Any Surface

Solid, high-mass construction offers stability on any surface

## « Resonance Damping Rings

Integrated resonance damping rings isolate speaker from vibrations for a clean, pure sound

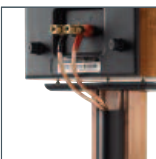

## « Quality Construction Materials

Energy-absorbing MDF, solid hardwood or heavy-gauge steel construction increases sound quality by providing acoustic isolation

## « Acoustic Isolation Technology

Adjustable carpet spikes and polyester or rubber feet isolate speaker stand to reduce resonance and improve sound quality

## « Wire Management Path

Large integrated wire path or concealed wire channel organizes heavy-gauge cables

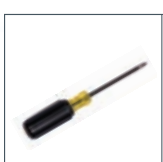

## « Contemporary Design

Unique designs include heavy-gauge steel, solid hardwood and MDF for a speaker stand built to perform with no compromising on aesthetics

## « Adjustable Height

Adjustable height allows speakers to be placed at optimum listening level

## « Easy To Assemble

Easy assembly can be completed in minutes with just a Phillips screwdriver

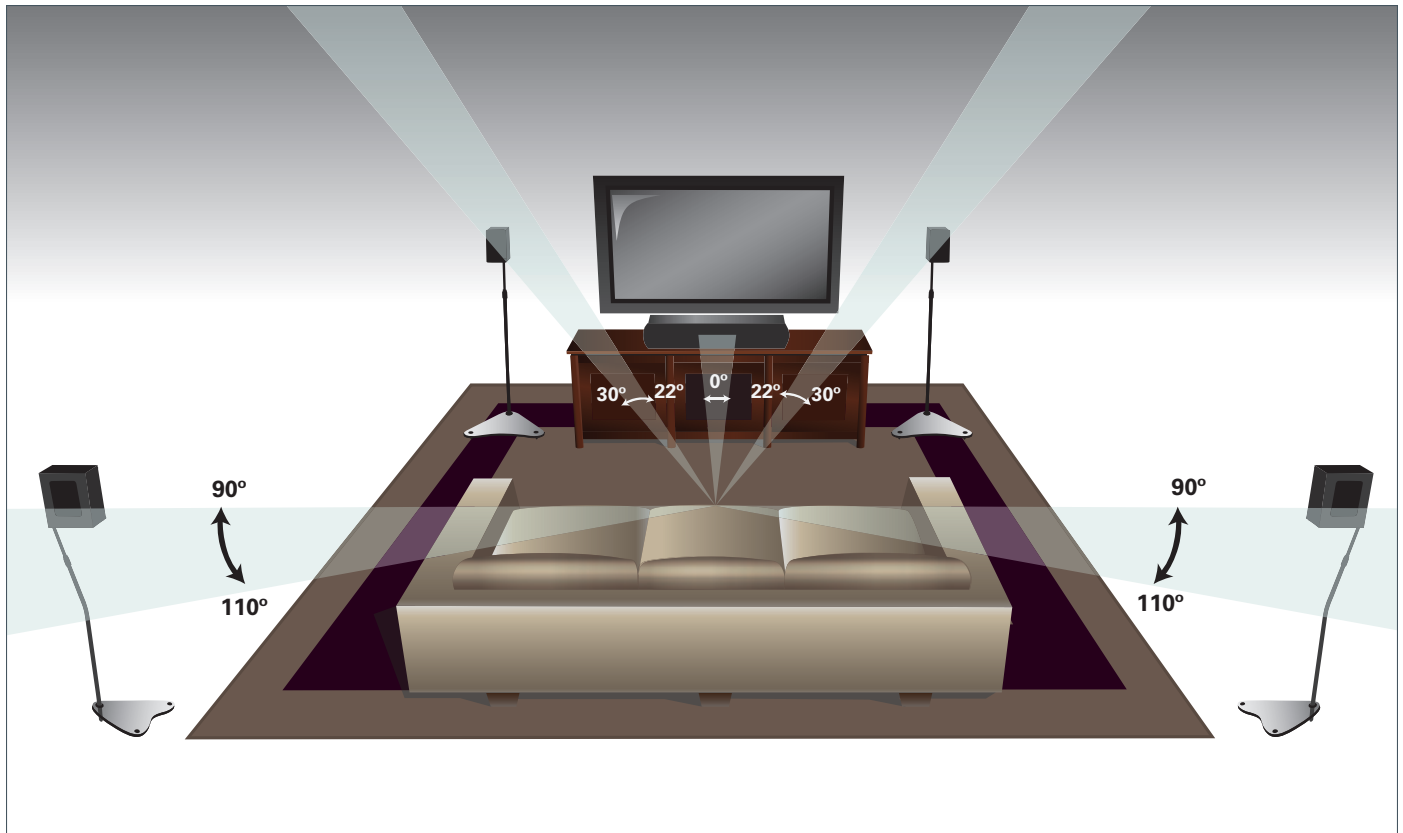

## « Resonance Reduction

Some pillars can be filled with shot for added stability and resonance reduction

# PROPER SPEAKER PLACEMENT

## FOR 5.1 SURROUND SOUND HOME THEATERS

Mounting and positioning the speakers correctly can be more important to sound quality than choosing components. For optimal sound, the tweeter should be at ear level. For most installations, the correct height is around 40 inches (give or take 5 inches). Key factors that affect this are the height of the listener and the height of the listener's chair.

### FRONT AND CENTER SPEAKERS

Place as close as possible to the same height, at or near ear level

### SURROUND SPEAKERS

Place slightly behind and above ear level and facing horizontally (not down at the listener)

# ULTIMATE SPEAKER FOUNDATIONS™

UF34 | CFV47-EB | CFA56-EB

## The ultimate acoustics for a true audiophile experience

When the Sanus engineers and Cramer Studio set out to create Ultimate Foundations™, they left no stone unturned in their quest for acoustic perfection. They started with a base constructed of an **energy-absorbing material** created with components of minerals, resin and glass. Next, they created a support of not one, not two, but three large-diameter **heavy-gauge steel pillars** designed to be filled with sand or shot. This creates a speaker stand weighing more than 80 pounds. And they finished this masterpiece with an ultra-heavy-gauge steel top plate complete with **brass isolation studs**. The result truly is acoustic perfection.

« Brass speaker isolation studs provide a stable non-slip surface

« Integrated Poron® rings isolate speaker stand from vibrations in the floor

« Wide triangular Nustone base with spikes and rubber pads or carpet spikes provides superior stability on any surface

« Steel pillars can be filled with shot or sand for added stability

« Cork resonance damping rings reduce vibration for the clearest sound

« Spackled gray finish complements any décor

# STEEL SPEAKER FOUNDATIONS™

## The perfect home theater solution

Resonance damping rings and adjustable isolation studs provide **superior acoustic isolation**. Custom-designed top plate provides safe and secure bolt-mounting option for many of today's speakers. The heavy-gauge tubular steel pillars can be filled with sand or shot for increased mass. A **wire management system** keeps speaker cables neatly organized. And the **heavy 10-gauge steel base** was designed by Cramer Studio and includes both **adjustable spikes and rubber feet**.

SF26b | DFV49-M01

« Heavy-gauge steel construction provides extreme rigidity and stability

« Large heavyweight base provides superior stability on any surface

« Center-channel stand tilts speaker to focus sound using adjustable studs or neoprene speaker pads

« Cork resonance damping rings isolate vibrations to help provide superior acoustics

# NATURAL SPEAKER FOUNDATIONS™

NF24b | PFV36-B1

## High-performance stands support speakers with the beauty of real hardwood construction

The softly contoured, hand-rubbed, black lacquer base is constructed of **acoustically superior MDF** and comes with both premium adjustable carpet spikes and polyester feet. The extra-thick pillar is constructed of **solid hardwood** for the perfect combination of beauty and quality. A patented **wire management channel** safely hides speaker wires behind the pillar. And the strong MDF top plate comes with **brass speaker studs and neoprene isolation pads**.

« Center-channel stand tilts speaker to focus sound using adjustable studs or neoprene speaker pads

« Adjustable carpet spikes or screw-in polyester feet add stability on any surface

« The extra-thick, solid hardwood pillar features a modern design that is both elegant and acoustically superior

« Patented wire management path easily organizes and conceals even the largest wires

# BASIC SPEAKER FOUNDATIONS™

Simple yet elegant, these speaker stands  
raise any speaker to the proper listening height

Basic Foundations™ may be affordable, but they're certainly not cheap.  
The construction begins with **energy-absorbing MDF**, not particle board.  
Add to that features like ABS plastic spikes, a **concealed wire path** and  
**neoprene speaker isolation pads**, and you've got sound Foundations  
for your speakers.

BF24b | PFV47b

« Three height options allow speakers to be perfectly placed for a custom audio experience

« Sturdy ABS plastic push-in spikes provide a solid foundation on most any surface

« Neoprene speaker isolation pads provide a soft, non-slip surface

« Patented concealed wire path hides even the largest wires from view

« Energy-absorbing MDF construction increases sound quality by providing acoustic isolation

« Easy assembly can be completed in minutes with just a Phillips screwdriver

# HOVER SPEAKER FOUNDATIONS™

## The first speaker stand designed to meet Dolby Laboratories' specifications

The proper positioning of home theater satellite speakers is not as obvious as it seems. While many people enjoy sound reproduced from speakers at ear level, the correct positioning, according to Dolby Laboratories, is actually several feet above ear level. Enter Hover Foundations™. These **heavy-duty cast iron and steel** speaker stands are the first ever that meet the placement guidelines of Dolby Laboratories. And they do so with rugged construction designed to hold speakers up to 10 lbs. and include features such as **adjustable height** and a **concealed wire management path**. Plus, Hover Foundations™ include both straight and angled pillars for Dolby surround or direct listening. Get ready to hear what Dolby Digital REALLY sounds like.

AV MOUNTS

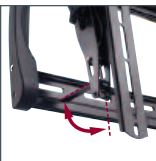

# VISIONMOUNT®

## FEATURES AND BENEFITS • INNOVATIVE TECHNOLOGY

« **ProSet™** — Height and level adjustments ensure TV is perfectly positioned, even after installation

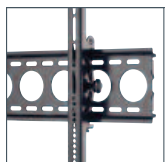

« **ClickStand™** — Holds TV away from wall for easy cable maintenance, then clicks securely back onto wall plate

« **FollowThru™** — An in-arm cable management channel that protects and conceals cables—even through the elbow—for a truly flawless look

« **Virtual Axis™ 3D** — Available with MF202, MF203, MF209, MF215, MD103, MD115 and MC1A, this patented technology allows the mount and TV to move easily in every direction possible with totally fluid motion

« **Universal by Design** — Mounting brackets featured on many mounts are designed with multiple holes to fit virtually any LCD or plasma TV

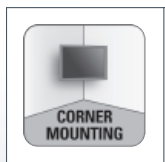

« **Tool-free Adjustments** — Available on tilting and full-motion mounts to enable your TV to tilt and swivel easily while maintaining the perfect viewing angle, all without the use of tools

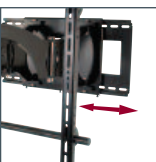

« **Cable Management** — Wires and cables are easily routed, keeping them concealed and organized

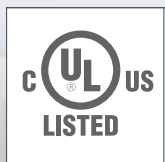

« **Virtual Axis™** — A patented technology that allows smooth, effortless tilting motion. And because it balances the TV's weight on itself, you can move it with the gentle touch of a finger

« **Corner Mounting** — Select mounts can be positioned in a corner to save space, offering a large range of motion for easy viewing from anywhere in a room

« **Lateral Shift** — Allows horizontal movement of mounting brackets on wall plate for perfect TV placement, even with off-center studs

« **UL Listing** — A nationally recognized safety standard listing granted to all Sanus mounts after rigorous weight capacity and angle hanging tests by Underwriters Laboratories Inc.®

« **Easy Installation** — Complete in just minutes  
1. Attach plate to wall  
2. Attach brackets to TV  
3. Hang TV on wall plate

# CHOOSING THE RIGHT MOUNT

## CHOOSE TYPE

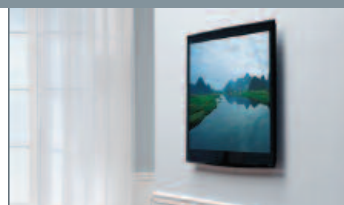

### FULL MOTION

Extend, retract, tilt and swivel your TV for perfect viewing from anywhere in the room. Great for corner placement — saves space while still offering a large range of motion. Reposition as often as desired with smooth, effortless motion.

### TILTING

Tilt up and down for better viewing from the sofa, bed or even the floor. Also useful for eliminating glare.

### LOW PROFILE

Mount flush to the wall to maximize the sleek, thin look of the TV.

## CHOOSE SIZE\*

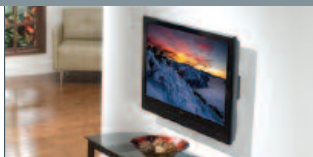

### SMALL

Generally used with LCD TVs up to 27". Most small Sanus mounts support up to 30 lbs. and fit TVs with VESA-standard mounting holes on back spaced (mm) 100 x 100 or 75 x 75.

### MEDIUM

Generally used with LCD TVs 23" to 42". Most medium Sanus mounts support up to 80 lbs. and fit TVs with VESA-standard mounting holes on back spaced (mm) 200 x 200, 200 x 100 or 100 x 100.

### LARGE

Generally used with PLASMA, LCD and LED TVs up to 56". Most large Sanus mounts support up to 130 lbs. and fit random hole patterns on back of TV.

### EXTRA LARGE

Generally for PLASMA, LCD and LED TVs 42" and up. Most extra-large Sanus mounts support up to 175 lbs. and fit random hole patterns on back of TV.

Search for TV model or brand.

Enter at least two characters

\*Some Sanus mounts vary from details above. Also, each TV has unique characteristics. Visit [www.sanus.com](http://www.sanus.com) and click on MOUNTFINDER™ to choose a brand and model of TV to verify compatible Sanus mounts.

## ALSO AVAILABLE: SPECIALTY MOUNTS

### « MOTORIZED MOUNT

Fully motorized tilt, swivel and extend movements at the touch of a button for perfect viewing angles anywhere in a room—universal remote control included.

### « PULL-OUT CABINET MOUNT

Extend and retract TV from cabinets and armoires for better viewing. Can be used with a variety of low-profile or tilting mounts.

### « CEILING MOUNTS

Tilt and swivel TV in all directions for easy viewing from anywhere in the room. Great as a space saver or when wall mounting is not an option.

### « DESK MOUNTS

A great space saver that offers increased freedom of movement. Attach without tools to desks up to 2.7" thick to cleverly hide hardware.

### « UNDER-CABINET MOUNT

Under-cabinet mounts tilt and swivel in all directions for multiple viewing angles and conveniently tuck under a cabinet when not in use.

### « RECESSED IN-WALL BOX

Allows a flat-panel TV to rest flush against the wall, hiding a full-motion mount. TV can be pulled out and pushed back for viewing flexibility and easy access to cables.

Model LMT15-B1 in use

# VISIONMOUNT®

## MOTORIZED MOUNTS

### Change the position of your TV without leaving your seat

Motorized mounts offer **fully automated movement by remote control**, making it easy to find and keep the perfect viewing angles without leaving your seat. TVs can automatically move to a pre-set position when the mount is turned on, or be positioned by remote control as desired. Perfect for placement above a fireplace and for reducing glare and light reflections. Recommended as a **"no-touch" solution** when flexibility in viewing angles and positions is desired.

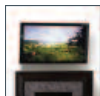

LA112-B1

« Full-motion mount featuring motorized tilt, swivel and extension motions

« Flexible decorative cover creates a clean and finished look while concealing cables

« Perfect for placement above a fireplace—automatically returns to home position when turned off to protect TV from heat damage

« Motorized swivel motion makes it easy to view the TV from anywhere in a room

« Safety sensor will stop movement instantly if object interference is detected

« Open wall-plate design allows flexibility for cable management

Model XF228-B1 shown with Component AV Foundations™ model CFV69-EB1 and Euro Speaker Foundations™ model EF28b

# VISIONMOUNT® LARGE MOUNTS

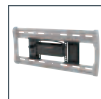

« ProSet™ height and level adjustments ensure TV is perfectly positioned, even after installation

« ClickStand™ feature holds TV away from wall for easy cable installation, then clicks securely back onto wall plate

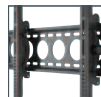

« FollowThru™ in-arm cable management channel protects and conceals cables—even through the elbow—for a truly flawless look

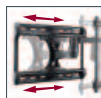

« ClickFit™ system allows power conditioners and other small devices to be positioned directly behind TV and easily clicked onto mount, so they stay hidden yet easily accessible

« Super Slim low-profile mount places TVs just .55" from wall — less than the width of a die

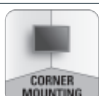

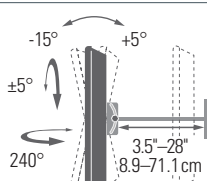

« Universal mounting brackets fit virtually any LCD, LED and plasma TV from 30" to 60"

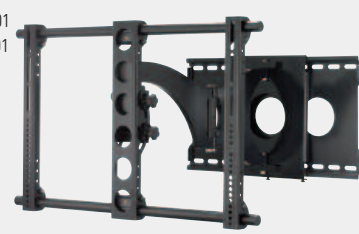

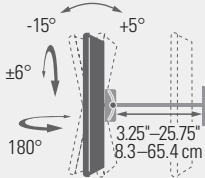

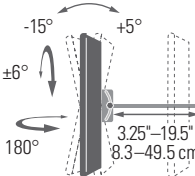

« All models offer lateral shift to allow perfect TV placement even with off-center studs

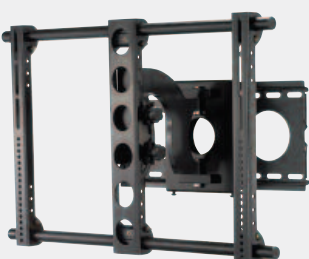

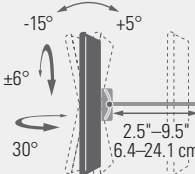

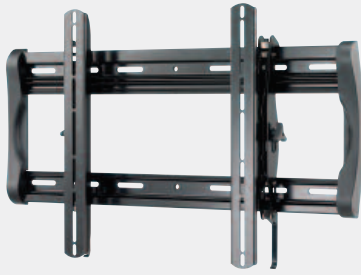

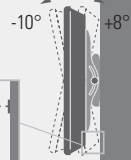

« Full-motion and tilting mounts feature the Virtual Axis™ mechanism for balanced tilting with the touch of a fingertip

# VISIONMOUNT® RECESSED IN-WALL BOX

**The LR1A recessed box allows a TV to be flush to the wall, so it hangs like a picture.**

1. Cut a hole in the sheetrock between 16" on-center studs and set the LR1A inside.\*
2. The finger-adjustable Quick Shims™ allow you to easily position and level the box and then secure it in place using provided hardware.
3. There are cutouts for signal and power cables on top and bottom, plus it's available in silver, black or paintable white to match any décor.
4. Once the LR1A is in place, choose a full-motion mount (model LRF118, VM400, or MF215) that fits your TV.

\* Safety note: Before cutting, ensure electrical wires or piping do not run within desired location

VM400b | LR1A-S1

« LR1A In-Wall Box supports Sanus VisionMount® LRF118, VM400 or MF215 wall mounts

« Finger-adjustable Quick Shims™ allow box to be leveled and secured tightly into place in no time

« In-Wall Box is available in a paintable white finish to match any décor

« LR1A features signal and power cable cutout holes to conceal and organize cables

« VM400 features a hinged arm to support and extend flat-panel TVs up to 100 lbs. from 0" to 17" off wall

« LRF118 is specially engineered for the LR1A and holds flat-panel TVs up to 130 lbs.

## BEFORE

Mount tucks neatly into in-wall box, enabling the TV to lie flush against the wall

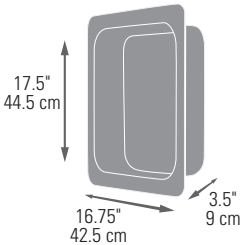

Model LR1A-B1 and LR118-B1 in use

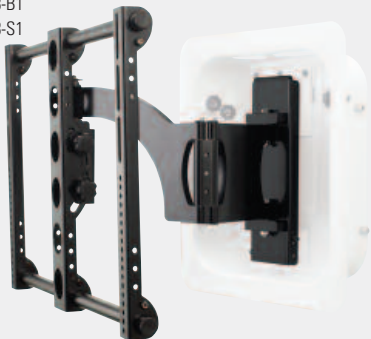

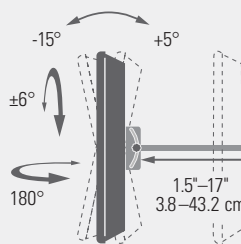

## AFTER

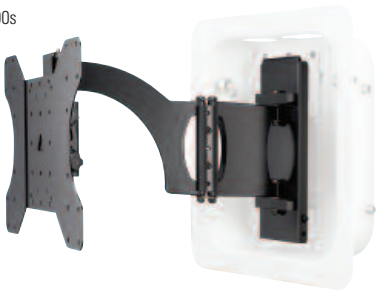

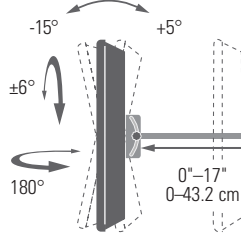

TV and mount pull away from in-wall box; full-motion features readily available

# FLAT-PANEL FRAMES

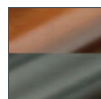

« Ultra-thick, high-quality frames fit most 42" and 50" flat panels

« Includes all hardware, so frame can be installed and secured onto TV quickly and easily

« Easy-to-install repeater kit allows TV to function properly if frame covers up remote pickup

« Designer frames available in classic black and toasted pecan

## Museum-quality hardwood frames turn flat-panel TVs into works of art

Sanus Systems Decorative Frames integrate design with technology to blend seamlessly into any décor. The optional Aristos

Optic Mirror Kit allows the picture to come through clearly, but magically transforms TV into a framed mirror when turned off!

**Sanus Decorative Frames**  
Choose from four different finishes to match your décor.

**Optic Mirror Kit (optional)**  
Aristos Optic Mirror Kit transforms TV into a mirror when not in use.

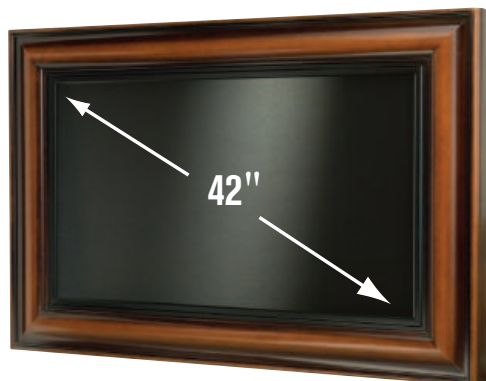

**Flat-Panel TV**  
Frames fit 42" and 50" TVs.

**Sanus VisionMount®**  
Low-profile mounts allow the frame to be virtually flush to the wall.

MODELS	DESCRIPTION

# VISIONMOUNT® DESK MOUNTS

## Full-Motion Desk Mounts are as versatile as they are strong

Our full-motion desk mounts are the perfect addition to any office space. These sleek mounts can be clamped to the back of desks up to 2.7" thick or mounted directly into the wire management hole without the use of tools. Mounts feature **adjustable height, independent head and arm tensions** and **integrated cable management channels**. Constructed of extruded aluminum and heavy-gauge steel, mounts are available in black, silver or graphite to complement any monitor.

MD115-G1

« Offers unique ability to clamp onto back of desk or to mount directly into cable management hole

« Independent tensions in arm and head offer easy adjustment without disturbing viewing angle

« Cable management channel neatly and safely routes cables

« Virtual Axis 3D™ technology allows the monitor to move in every direction possible with fluid motion, so it's easy to switch from portrait to landscape

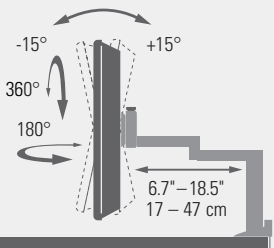

« SmoothLock™ technology provides smooth tilt and swivel motions without loosening

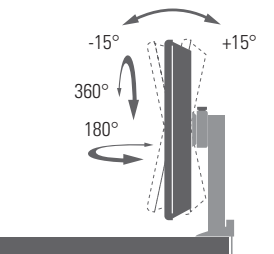

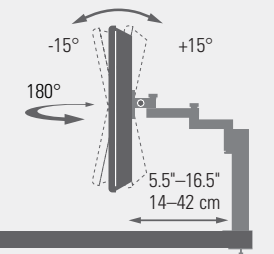

« Adjustment knobs for "set and forget" tension without any tools
